

VERLASSO[®]
HARMONIOUSLY RAISED FISH

PIONEERING NEW TRADITIONS IN HARMONIOUS AQUACULTURE

Verlasso has been a leader in sustainable practices for nearly a decade. They work closely with their local communities to reduce environmental impact with proven innovative sustainable farming techniques. Verlasso is pioneering new traditions in harmonious aquaculture and is a truly trusted source for sustainable quality salmon.

Located deep in the southern hemisphere, Chilean Patagonia offers the perfect environment for sustainable aquaculture. Featuring vast stretches of clean, cold, crystal clear water and strong ocean currents, the region is the perfect natural habitat for raising the finest farmed salmon.

As a leader in sustainable farming practices, Verlasso consistently meets growing demand while raising the highest quality farm-raised salmon. Our commitment to leadership extends beyond sustainable farming to include consistent harvesting, processing, and delivery, making Verlasso one of the only producers that reliably delivers at scale.

What Chefs Want![®]
