Hen of the Woods

ABOUT

The Hen of the Woods journey began in 2013 at the Washington Park farmer's market in Cincinnati. The Hen of the Woods team is made up of chefs whose goal was to "create a well-balanced, unique kettle chip that spoke to [their] years of culinary experience." They focus on: flavor, texture, the quality of ingredients, and treating the ingredients respectfully.

Hen of the Woods started as a garnish on a salad and has grown into a snack food company that never compromises their values.
