# Sunflower Sundries

## ABOUT

Sunflower Sundries makes all products on farm by hand since 1992, except for the corn chips, which are made for them by a tacqueria, from their corn. They specialize in 15 kinds of low sugar jams, 3 different coarse grained mustards, heirloom corn freshly ground on their own mill into: cornmeal, grits, & hominy. Sunflower Sundries grows everything organically, not certified, and turns everything they grow into a finished product in their commercial kitchen. They welcome visitors to their farm where one can see their process and view the fields. Sunflower Sundries provides exceptional quality, freshness and superb taste, with over a quarter century of handmade goodness.
