

Local Food Connection Proud Partner **That Guy's Family Farm**

ABOUT

That Guy's Family Farm is owned by Guy and Sandy Ashmore. Guy and Sandy have been farming together since they were out of high school. They first started farming using chemicals and conventional techniques but were not seeing successful production. They decided to take the road less traveled and farm "with nature...not against it," and soon saw great success!

They are long-standing members of OEFFA (Ohio Ecological Food & Farmers Association) and have inspired their children to pursue their own endeavors in sustainable farming.
