

Local Food Connection Proud Partner **Family Farm Fresh Co-Op**

ABOUT

Family Farm Fresh is a cooperative group of small family farms dedicated to supporting and promoting the core values of a rich ag-based heritage passed down from their ancestors. Family Farm Fresh Co-op is the direct link from their farmers fields to your dinner table. Their growers use traditional, organic and sustainable farming methods, while also using innovative methods such as adding natural soil amendments to their fields, periodically rotating crops, and planting cover crops out of season to rebuild nutrients in the soil. This result is top quality, wholesome nutrition from their family and yours.
