## ANNA'S CRYSTAL BALL

*what our local produce purchaser predicts is coming*

### It's all here right now!

- All the summer items: **green bell peppers, squash, cucumbers, tomatoes**, and more!
- In addition to the **heirlooms**, there are **cherry and Sungold tomatoes**. Now is the time to get these, while the sun's on them! The cherry tomato mix is hot, too.

### In the next couple weeks...

- Our final summer favorite is on the way with the bell peppers starting to change colors! Expect **red and yellow peppers** to start soon.
- The softball-sized variety of **cantaloupe, Sugar Cube**, will be coming. We'll also see a new **cherry tomato variety called Sun Peach!**
- Generally, **peaches** are heading out the door over the next couple weeks, so get them while they last.

### In the next month, as we think ahead to post-Labor Day...

- Even if it's still hot, we're already going to see the **delicata, butternut, and spaghetti squash** full on. You'll start to see **kabocha squash, acorn, and other specialty fall squash** soon after.
- We're bringing on our first **KY apples**, which will start with cooking varieties and lead into snacking varieties in the subsequent weeks.
- **Cantaloupe** will be here at least until early September.
- **Watermelon** will stay in until late September.
