## HIGHLIGHTS FOR THE WEEK

### JOHN'S CRYSTAL BALL

*our local produce purchaser predicts what's next*

**Baby spring Vidalia onions (#20939) in a 24 ct. case are in from LG Herndon Jr. Farms, coming from their homebase in Lyons, GA.** This is the precursor to the mature Vidalia that will rollout at a date in April to be determined later by the Vidalia Onion Committee.

They are known for their small size, early harvest (December-April), and sweet flavor. They are often used in stir-fries or raw in salads, and are distinct from other small onions like cipollini or pearl onions, offering a milder, sweeter profile perfect for quick cooking or fresh dishes.

A few other exciting seasonal favorites below, and check these out, too:

- **more seasonal specialties** from smaller farms - p. 2
- **commodities** currently **filled from local sources** - pp. 3-5
- local **sprouts, microgreens, and edible flowers** - pp. 6-7
